CAREER OBJECTIVE

I am a diligent Self-Taught Developer with a Responsive Web Design Certification in Website Development and 2+ years of work experience. Aiming to leverage academic experience and a proven knowledge of application development, advanced technology, and web design to successfully fill the Junior Front-end Engineer role at your company. Frequently praised as hard-working by my peers, I can be relied upon to help your company achieve its goals.

PROFESSIONAL EXPERIENCE

WEBSITE DEVELOPER
Scrybe Digital, Clarksville, TN / Jan 2019 – Present

- Design, build, or maintain web sites, using authoring or scripting languages, content creation tools, management tools, and digital media.
- Perform or direct web site updates.
- Write, design, or edit web page content, or direct others producing content.
- Use version control systems such as Github for developer collaboration and source code backup
- Evaluate code to ensure that it is valid, is properly structured, meets industry standards and is compatible with browsers, devices, or operating systems.
- Maintain understanding of current web technologies or programming practices through continuing education, reading, or participation in professional conferences, workshops, or groups.
- Renew domain name registrations.
- Write supporting code for web applications or web sites.
- Select programming languages, design tools, or applications.
- Develop and document style guidelines for web site content.
- Develop web site maps, application models, image templates, or page templates that meet project goals, user needs, or industry standards.
